## OBJECTIVE

Passionate Full Stack Web Developer with React, NextJs mastery and MERN stack expertise. Committed to building user-friendly, responsive UIs and staying updated on industry trends to create innovative, efficient solutions. Collaborative team player focused on exceeding client expectations.

## SKILLS

### Technical Skills

- **Expertise:** React.js, TypeScript, Redux, HTML, CSS, JavaScript, Express.js, Tailwind, Ant Design
- **Comfortable:** Next.js, Node.js, MongoDB, Mongoose, JWT, Python, Material Tailwind, Postman
- **Familiar:** Material Ui

### Problem Solving

- [Codeforces](#)     [HackerRank](#)

## PROJECTS

### VirtualDoc(Team Project)

🔗 <https://virtual-doc-site.web.app/>

- Technology Used: React.js, JavaScript, Mongoose, Material Tailwind, SSLCOMMERZ, Node.js, Express.js etc.

GitHub Repositories: [Client-Side](#)     [Server-Side](#)

**My Role:** Front-End Developer, Back-End Developer (Mongoose)

#### Key Contribution:

- Designed responsive user interfaces for key platform sections, including home page, tips management, dashboard etc.
- Integrated SSLCommerz for seamless and secure appointment booking with payments.
- Developed some sections like dynamic comment for user interaction, BMI calculation, Fb Login, user roles and Profile etc.

### Shine Slot

🔗 <https://shine-slot-client.vercel.app/>

- Technology Used: ReactJs, JavaScript, Redux, TypeScript, Prettier, Ant Design, ExpressJs, Mongoose, JWT, AmarPay.

GitHub Repositories: [Client-Side](#)     [Server-Side](#)

- **User Authentication & Role-Based Access:** Secure sign-up/login, role-based control (User, Admin), JWT authentication.
- **Service Management & Booking System:** Browse/filter services, real-time slots, integrated payment, admin dashboard.
- **User Dashboard & Review System:** Personalized dashboard, interactive reviews, booking countdown timers.

### DestinyDiary

🔗 <https://destiny-diary.vercel.app/>

- Technology Used: NextJs, TypeScript, Tailwind, MongoDb, Mongoose, Node.js, Express.js, jwt, Lodash, AmarPay, NextUi

GitHub Repositories: [Client-Side](#)     [Server-Side](#)

- Developed a full-stack travel platform using Next.js, TypeScript, and MongoDB, implementing JWT authentication, premium content management, and secure payment integration with Aamarpay.
- Integrated rich text editors for travel guides and Aamarpay payment system for premium features
- Implemented user profiles with verification badges and role-based access control
- Developed responsive UI with Tailwind CSS including advanced search and admin dashboard

## EDUCATION

BSc in Data Science

**United International University**

📅 2023 - 2027(Expected)

## EXTRACURRICULAR ACTIVITY

- Secretary of Programming  
BAF Shaheen College Dhaka Information Technology Club
